

EXHIBIT N

FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Equipment Decision Package

Cost Center: Mathematics Division

Budget Year: 2008 - 2009

Person Initiating Request: Chris Diorietes

Extension: 88443

<p>Description of Equipment: Elmo (9338) P30 Document Camera: XGA Output@20 FPS: Memory card slot: 15X Optical: 4X Digital: 60X Enlargement: DVI Output: 10 lbs: USB 2.0</p>	<p>Proposed Location and For Use by Whom (Individual or Group): Location: VCC 619 in the second math PRIME Lab Users: Math department personnel teaching in the PRIME Lab</p>																				
<p>Reason for purchase: Intended for use in the new PRIME Lab. Due to placement of computer work stations, there is limited white board access and not enough room for an overhead projector. This equipment would allow for visual presentations and accommodate a wheelchair-bound instructor who cannot access the white board.</p>	<p>Consequences if not funded: Visual presentations would be limited to a small white board, which is an inadequate amount of space for a math class. A wheelchair-bound instructor would not be able to do any visual presentations to the class as a whole.</p>
