Curriculum Review Committee

The Curriculum Review Committee (CRC) has the authority to review and take action on submissions regarding changes, additions, and deletions to the Combined Course Library (CCL). Committee members strive to achieve consensus, rather than simple majority vote. If a clear division among committee members occurs during a vote, discussion continues until a decision is reached that all members can accept and understand. The committee strives to identify existing alternative solutions when requests are denied. CRC members are dedicated to increasing the degree of flexibility available to individual colleges, i.e., use of local prerequisites in lieu of system-imposed prerequisites.

See the [Curriculum Procedures Reference Manual](#) for more information.

General CRC procedures are outlined in Section 15, while forms are available in Section 22.

The CRC meets twice each calendar year. The meeting dates and submission deadlines are as follows:

Items Due to System Office	CRC Meeting Date	Implementation Dates
July 29, 2008-January 26, 2010	March 2010	Spring Semester 2011 (2011*01)
January 27, 2010-July 28, 2010	September 2010	Fall Semester 2011 (2011*03)

Requests received after due dates will be acknowledged and placed on the agenda for the next meeting.

For CCL questions, please contact Sharon Smith [via e-mail](#) or at (919) 807-7238.
